

LOKO ISRAEL TOMISIN

Full Stack Developer | AI & Web Applications | Open Source Contributor
Lagos, Nigeria · +234 707 416 5672 · israelloko65@gmail.com · github.com/fluxaro

PROFESSIONAL SUMMARY

Full-stack developer with 2+ years of experience building production-ready web applications, AI-powered platforms, and developer tools. Sole engineer at ApplyBureau, owning 40+ live projects including a self-built AI productivity suite. Proficient in React.js, Django, Python, and TypeScript, with a track record of leading teams, mentoring junior developers, and shipping from day one.

CORE COMPETENCIES

Frontend: React.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Framer Motion

Backend: Django, Python, REST APIs

Architecture & Tools: System & full-stack architecture, Git/GitHub, Vercel, VS Code

Specialties: AI integration, security tooling, responsive design, scalable architecture, debugging

PROFESSIONAL EXPERIENCE

Full Stack Developer — ApplyBureau

2025 – Present

Remote · Canada-based client service

- Sole engineer who designed, built, and continues to maintain ApplyBureau, a professional job application and interview support service serving clients across North America.
- Built the full client-facing website, including a multi-step consultation booking flow, package/pricing pages, client dashboard, and contact system.
- Developed and maintain the client dashboard where job seekers track application progress, view interview schedules, access tailored resumes, and message their career strategist.
- Own the full technical stack — frontend, backend, deployment pipelines, and long-term product direction — shipping features based on client feedback and business needs.

Frontend Developer & Instructor — Digital Fortress Institute

Jun 2024 – 2026

Nigeria

- Teach frontend development to students and junior developers, covering React.js, JavaScript, HTML/CSS, and component-based architecture.
- Deliver hands-on, project-based training while managing and shipping real-world frontend projects.
- Design and maintain reusable UI component libraries used across client projects.

Full Stack Web Developer — Intern — Zaalima Development Pvt. Ltd

Mar 2026 – Jul 2026

Remote

- Built interactive full-stack web applications using Django, Python, and modern frontend frameworks.
- Improved responsiveness and user experience across client projects.

Web Developer — Intern — DataTech Alpha Pvt. Ltd

Mar 2026 – Jul 2026

Remote

- Developed responsive, high-performance websites and web applications.
- Contributed to both frontend and backend development tasks.

SELECTED PROJECTS

- **Spark AI:** Standalone AI-powered productivity suite combining a chat assistant, smart task scheduling, document analysis, email generation, translation, and a step-by-step problem solver, with zero-setup onboarding and enterprise-grade security.
- **Fuzzy Rule-Based Security Tool:** Django/Python security analysis tool applying fuzzy logic to scan web applications for misconfigurations, scoring ambiguous risk states and returning actionable insights.
- **Chieditor:** Browser-based code editor built from scratch, modeled after VS Code — syntax highlighting, live code evaluation, and a multi-tab workspace.
